### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. This action is in response to a request for reconsideration filed June 7, 2004. Claims 1-17 are pending. An informational disclosure document (IDS) filed has not been considered. Copies included with the Image File Wrapper (IFW) are unclear and clear copies have been ordered and will be considered.

#### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Figure 1 of Gron. Note the “city water” inlet C and valved exterior water outlet G which are shown to be disposed on respective different sides of the “recreational vehicle” A. The particular type of vehicle recited is deemed design choice and given no patentable weight. All of the recited vehicles are variations of vehicles which include fluid systems having inlets and outlets. The “fluid system” of Gron is readily usable on any of the recited vehicles. Applicant’s remarks, drawn to the previously applied patent to Sordello et al were considered and deemed persuasive. The newly cited patent to Gron has been applied to the claims.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. The factual inquiries set forth in *Graham v. John Deere Co.*, 148 USPQ 459, that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or unobviousness.

6. Claims 8-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Reid in view of Gron. Reid discloses the claimed invention except for the recitation of an exterior outlet separated from the "city water inlet" 18 of Reid as taught by water outlet G of Gron. Note the toilet E sewage outlet and meter 26 disposition of Reid. It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the recreation vehicle of Reid, as taught by Gron in order to provide ease of sanitary access.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Newly cited patents to Sproule and Snyder are of particular interest.
